Simon's Bathroom

Hall bath renovation · 5'-0" × 8'-11" with walk-in shower

Design rendering from the doorway (Blender / Cycles). Finishes are representative.

DESIGN INTENT

Classic bath with an antique-white shaker vanity (white quartz top, undermount basin), marble octagon-and-dot floor and a walk-in shower in glossy grey handmade-look subway tile, 6×12 below a pencil liner at 36" and 3×8 above to the ceiling, behind clear frameless glass. All plumbing trim and hardware satin / brushed nickel.

GENERAL NOTES

1. Dimensions come from the design model (built from the owner's SketchUp file). Field-verify every dimension before ordering or cutting; the room has not been field-measured for this set.
2. Plan dimensions are to finished wall faces. Heights are above finished floor (AFF).
3. Fixture sizes are the specified products' published dimensions; confirm rough-ins against the manufacturer spec sheets on site.
4. Toilet: 12" rough-in, centered 15⅞" from the vanity and from the shower jog wall (code min. 15" to centerline, 21" clear in front).
5. Shower: provide waterproof membrane on all wet walls and the pan, sloped to the drain. Niche is recessed into the window-side wall, lined in 3×8 with a marble sill.
6. Shower tile set-out: running bond; lay out each wall so both end cuts are equal size and no cut is under 2½". Six full 6×12 rows from the pan to the liner; 3×8 above, cut row at the ceiling.
7. Exhaust fan and GFCI receptacle are required by code but not modeled — locate with the electrician.
8. Owner direction: no plant or vase on the vanity; vanity hardware and faucet satin nickel.
